REVENUE ESTIMATE FOR 30 JUNE 2010

Following a Directors meeting today, Fluorotechnics Limited announces that it will not achieve the previous sales estimate of \$5 million for the year ending 30 June 2010.

Fluorotechnics' major markets are in Europe and the USA, both of which have been hit hard by the global financial crisis. This in turn has curtailed expenditures by our potential customers, thus extending the sales process for our products.

Progress on our strategy of converting global opinion leaders to adopt our HPE Tower System has been satisfactory. However, whilst many orders for this HPE Tower System are currently pending, a cautious approach to their early completion has been taken by the Directors.

Rick Taylor
Chairman
