

ASX Announcement
Revenue for 2009 / 2010

13 July 2010 – Sydney, Australia: Fluorotechnics Limited (ASX: FLS) revenue for the year ended 30 June 2010 was \$3.5 million (2008/2009: \$3.2 million).

This revenue is below expectations as our major markets of Europe and the USA continue to be affected by the global financial crisis. This continues to impact on the buying decisions of our potential customers.

Sales of our leading HPE FlatTop system are building, albeit at a rate below our expectations. Nevertheless, its adoption in the market is encouraging, as are the endorsements by influential opinion leaders who have become customers.

About Fluorotechnics (ASX:FLS): Fluorotechnics, under the trade brand of Gelcompany is a global company that develops, manufactures and supplies products that enable Life Scientists to better measure biological processes. Our products have applications in proteomics, genomics and cell biology and are routinely used in research, development, quality control and diagnostics.

We are focused on the development of innovative products, integrated into novel solutions that provide enhanced performance. Our core skills and technology advantage are in electrophoresis, where we have championed the introduction of High Performance Electrophoresis (HPE), a novel electrophoresis workflow solution.

We are dedicated to providing quality products, support and service and to improve scientific methodologies through the development of technically superior products that are also environmentally friendly, safe and easy to use.
